

The Ark Documentation.

Add new subject: contact information.

Once you have created a new subject you can add contact information.

To enter a phone contact number, click the Phone function.

The screenshot shows a web browser window with the URL `prod.the-ark.org.au/ark/home?3`. The page header includes the logo for the Centre for Genetic Epidemiology & Biostatistics, The University of Western Australia, and the ARK logo with the text 'OPEN SOURCE SOFTWARE FOR MEDICAL RESEARCH'. Below the header, a navigation bar contains tabs for 'Study', 'Subject', 'Datasets', 'LIMS', 'Reporting', 'Work Tracking', 'Disease', and 'Admin'. The 'Subject' tab is active, and within it, the 'Phone' sub-tab is selected and highlighted with a red box. The main content area displays a form for adding contact information, including fields for 'Person Height', 'Person Weight', 'Available date', 'Partner Name', 'Marital status', 'Was included With study - WT', 'BloodPressure', and 'Does Encoded Work?'. A 'Save' button is located at the bottom of the form. A warning message at the bottom of the form states: 'Warning: You must click the "Save" button for changes to be kept. Moving away (including to the next page of fields) will lose any unsaved data.'
