

# The Ark Documentation.

## Collection Custom Fields.

Log in and select your study.

Once you have chosen your study we will see the following functions. Click the LIMS function in the top row.

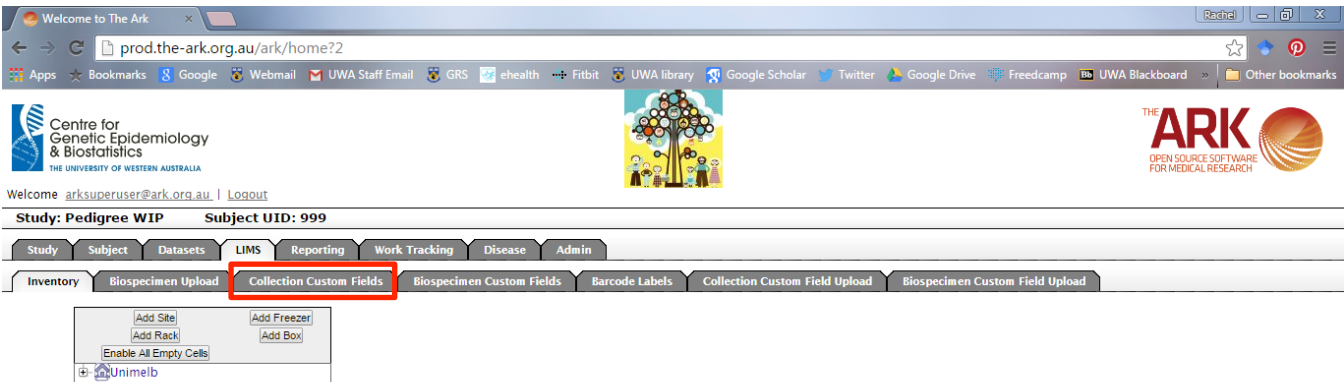

The screenshot shows the Ark LIMS interface. The top navigation bar includes 'Study', 'Subject', 'Datasets', 'LIMS' (highlighted with a red box), 'Reporting', 'Work Tracking', 'Disease', and 'Admin'. Below this is a sub-navigation bar with 'Study Details', 'Study Components', 'Manage Users', 'Subject Custom Fields', 'Subject Custom Field Upload', and 'Subject Upload'. The main content area features a form for adding a new study with fields for ID, Status, Principal Contact, Study Name, and Date of Application. Below the form is a table listing existing studies.
